ORACLE®

PRIMAVERA

Primavera P6 is an Enterprise Project Portfolio Management solution that provides stakeholders with visibility to the health of projects and porfolios with regards to scope, time , cost, resource and risk management. Managers can easily determine if their projects are diverging from approved baselines through it's CPM engine providing critical path analysis that has been adopted as an industry standard.

Scheduling & Critical Path Methodology

Generate critical path network (CPN) to determine the project duration and therefore the anticipated project completion date.

Activity Usage Profile

View resource allocations for activities in units or cost over time for individual projects or portfolios of projects.

Resource Usage Profile

Analyze quantity or cost usage for resources or roles over time to ensure availability meets the required demand.

Activity Table

Analyze the budgeted cost of each individual activity and see the rolled-up cost to the irrelevant WBS as well as the entire project
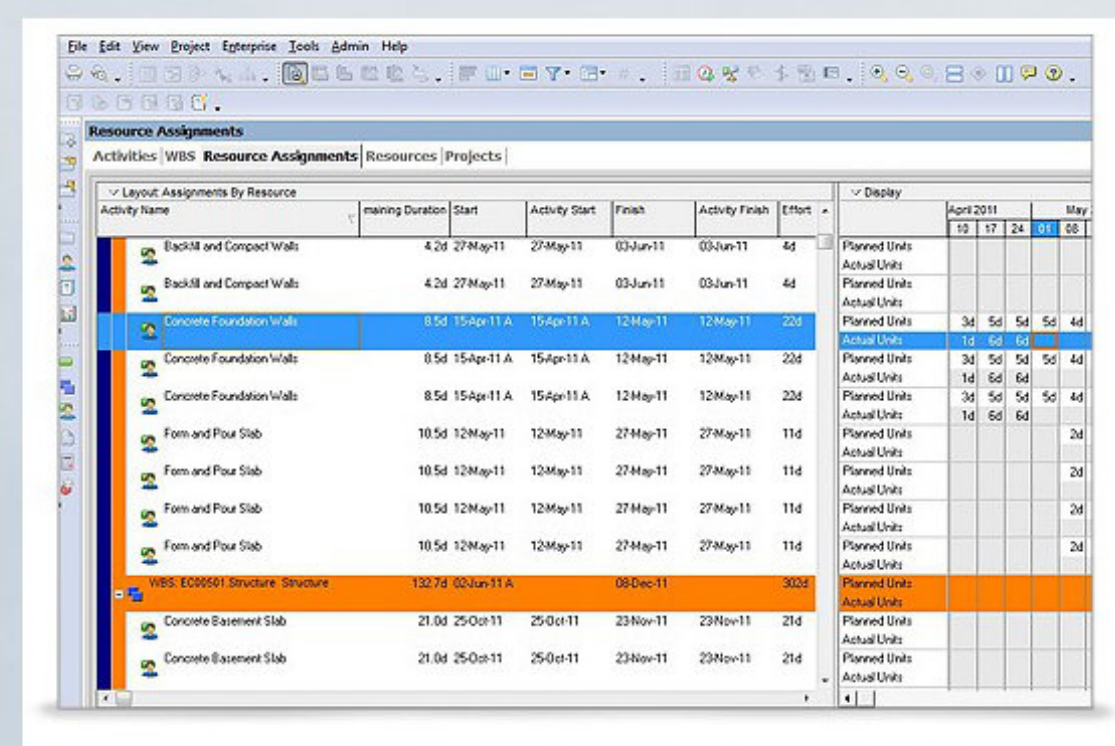

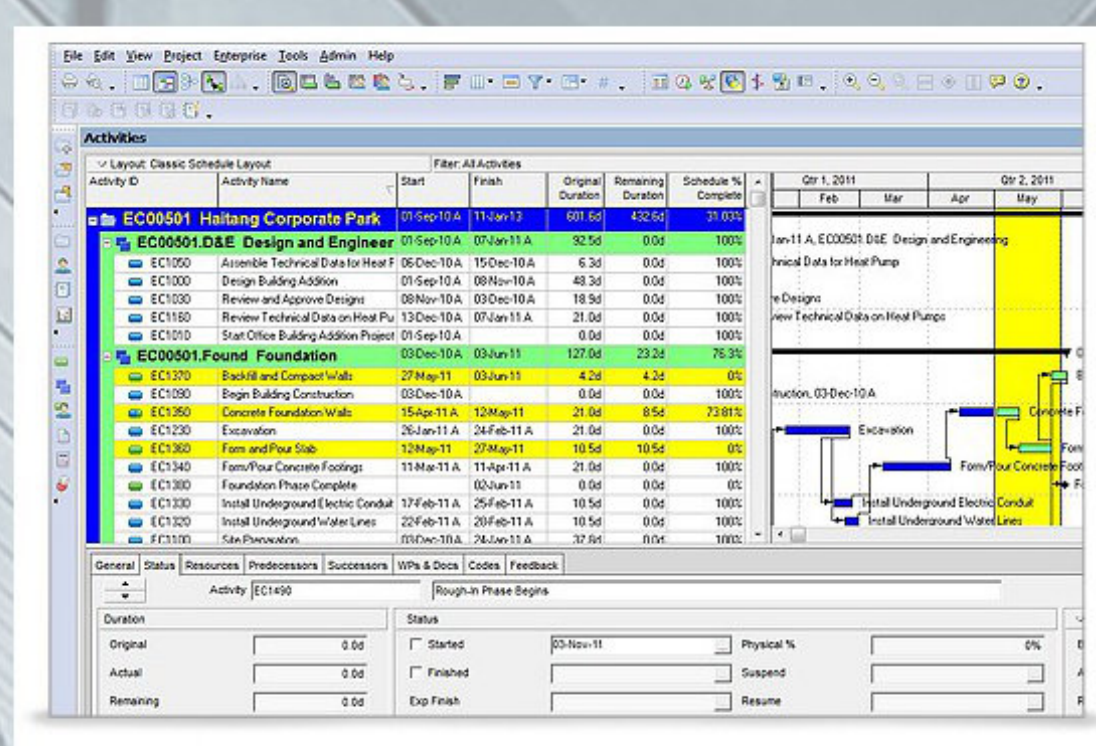

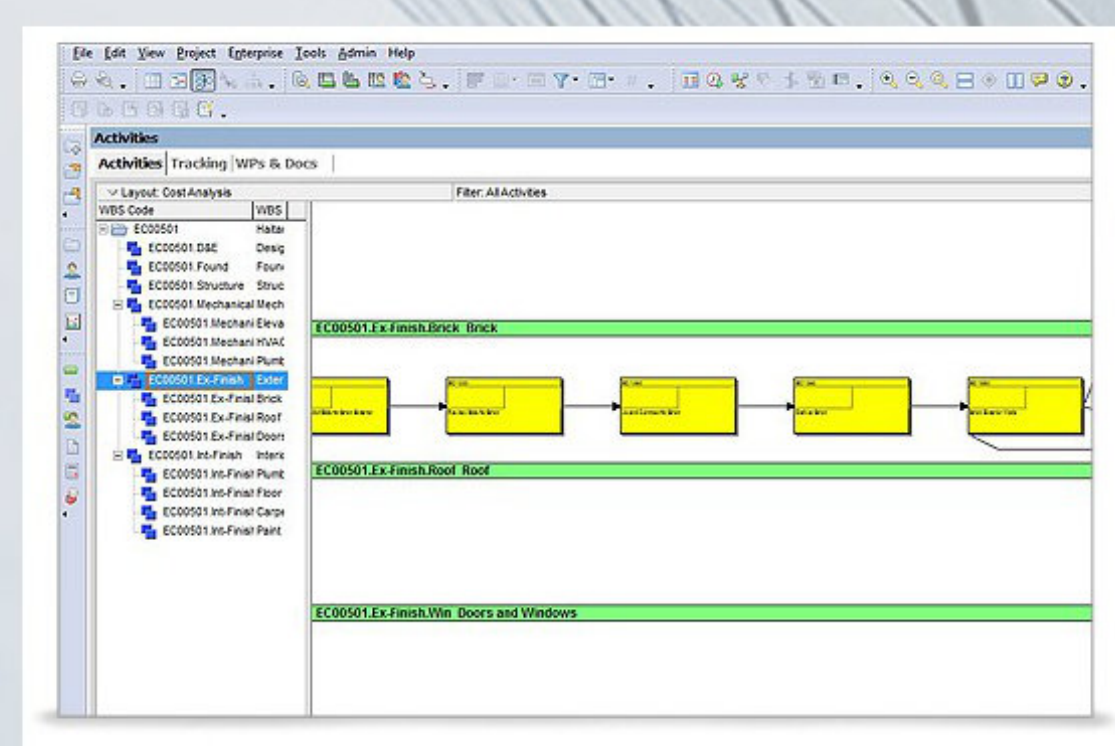

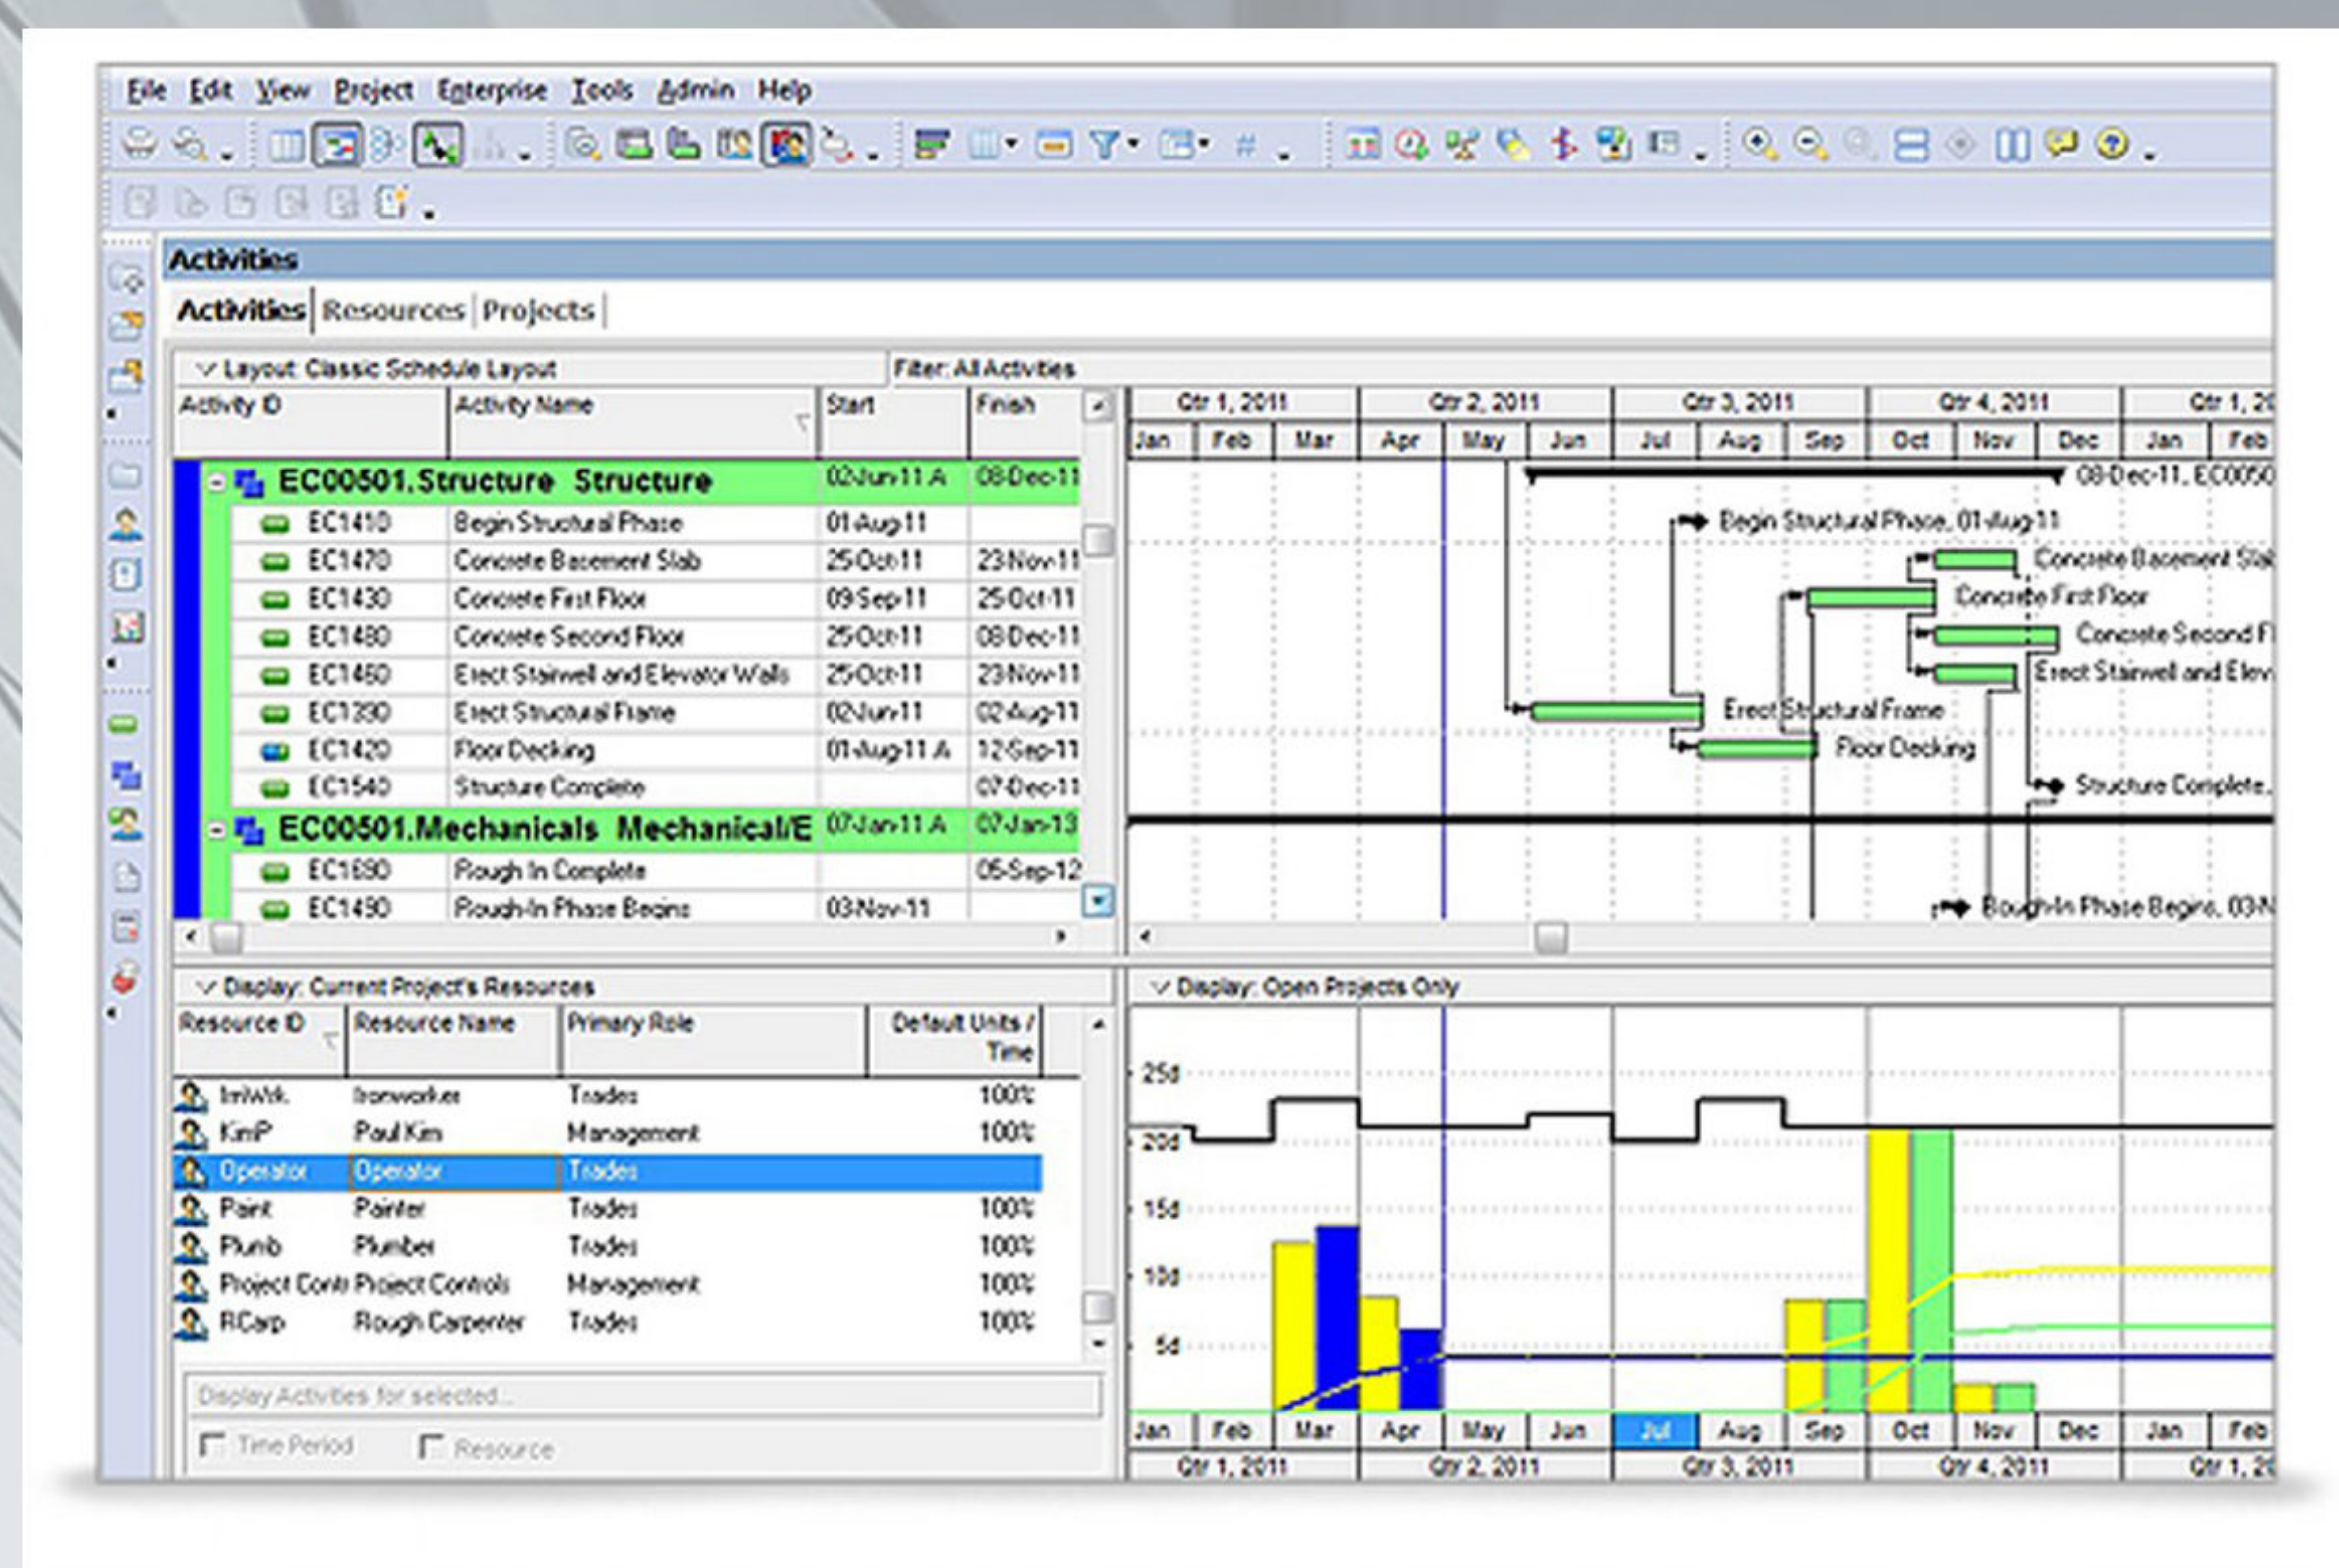

Project Management Reports

Create or modify project management reports using standardised pre-defined templates or create new report via the Report Wizard.

Tracking Layout

Review projects at a comprehensive level and then drill down to more detailed levels to show current progress against the approved baseline.

Tailored for Project Intensive Industries:

Engineering and Construction
Aerospace and defense
Utilities
Oil and gas
Industrial manufacturing
Public sector
Financial services
Chemicals

Features:

Unique ID
Activity Sorting
Baselines
Start and Finish Milestones
Multiple User Access
Issues & Risks
Expenses
Custom Fields

Work Breakdown Structure
Steps
Web Support
Columns
Multiple Project Creation, View & Tracking
Mulitple Activity Relationships
Project Website

TRAINING

Improve your skills at our PCSS Training Centre. PCSS offers a full range of courses to help to develop your skills, meet industry requirements to complete projects within the triple constraints of Time, Cost, and Performance. The courses available are:

Managing Projects in Primavera P6 (Basic) - PCSS120B
Managing Projects in Primavera P6 (Resource) - PCSS120R
Managing Projects in Primavera P6 (Project Controls) - PCSS120P
Administration of Primavera P6 - PCSS120A
Executive Management in Primavera P6 - PCSS120E
Managing Projects in Primavera P6 Web - PCSS120W
Earned Value Management - PCSS130
Risk Management In Projects - PCSS140
Time Management - PCSS150
Scope Management - PCSS 160
Managing Contracts in Primavera Contract Manager - PCSS170
Primavera P6 P3 to P6 - PCSS180
Principles of Planning, Scheduling & Controlling - PCSS 210
Project Management Controls - PCSS220
Schedule Interrogation - PCSS230
Planning, Scheduling & Controlling Using Primavera P6 - PCSS240

Refresher Course in P6 - PCSS250
Project Management in MSP (Basic) - PCSS310
Project Management in MSP (Advance) - PCSS320
Project Management in Synchro 4D BIM - PCSS410
2D Design in AutoCAD - PCSS510
3D Design in AutoCAD - PCSS520
Autocad Civil 3D - PCSS530
Autocad LT - PCSS540
Advanced Microsoft Excel - PCSS600

SERVICES

Project Management Office (PMO)

The PMO is the department or group that defines and maintains the standards of processes related to project management within the organization. The PMO strives to standardize and introduce economies of repetition in the execution of projects and is the source of documentation, guidance and metrics on the practice of project management and execution. PCSS can implement a PMO within your organisation that allows your project success rate to be repeatable.

PROJECT MANAGEMENT AUDITS

Ever wondered if your project management processes meet standardised best practices that have proven to increase your profit margin by completing projects more effectively and efficiently? PCSS can measure your process against approved guidelines established by Project Management Institute, A Guide to the Project Management Body of Knowledge, (*PMBOK® Guide*) - Latest Edition, together with our industry experience and the use of QARA.

QUALITY ASSURANCE-RISK MANAGEMENT (QARA)

QARA provides you the means to outsource the project controls processes to PCSS as an independent third part or to assess the quality of your project management processes and determine what risks your projects are expose to.
- Quality Assurance ensures implemented methodologies are recognised project management standards, executed by professionals.
- Risk Assessment of project deliverables in an objective manner providing mangement with 'up-to-minute' reports as to the project's health. This allows them to make informed decisions as to the mitigating strategies to adopt to ensure their projects complete succesfully.

PLANNING & SCHEDULING ASSIGNMENTS

An essential element to the success of any project is the monitoring and controlling to ensure accurate progress measurement to-date and the forecast to completion of the remaining work to ensure early detection of any divergence from the approved baseline allowing for appropriate intervention.
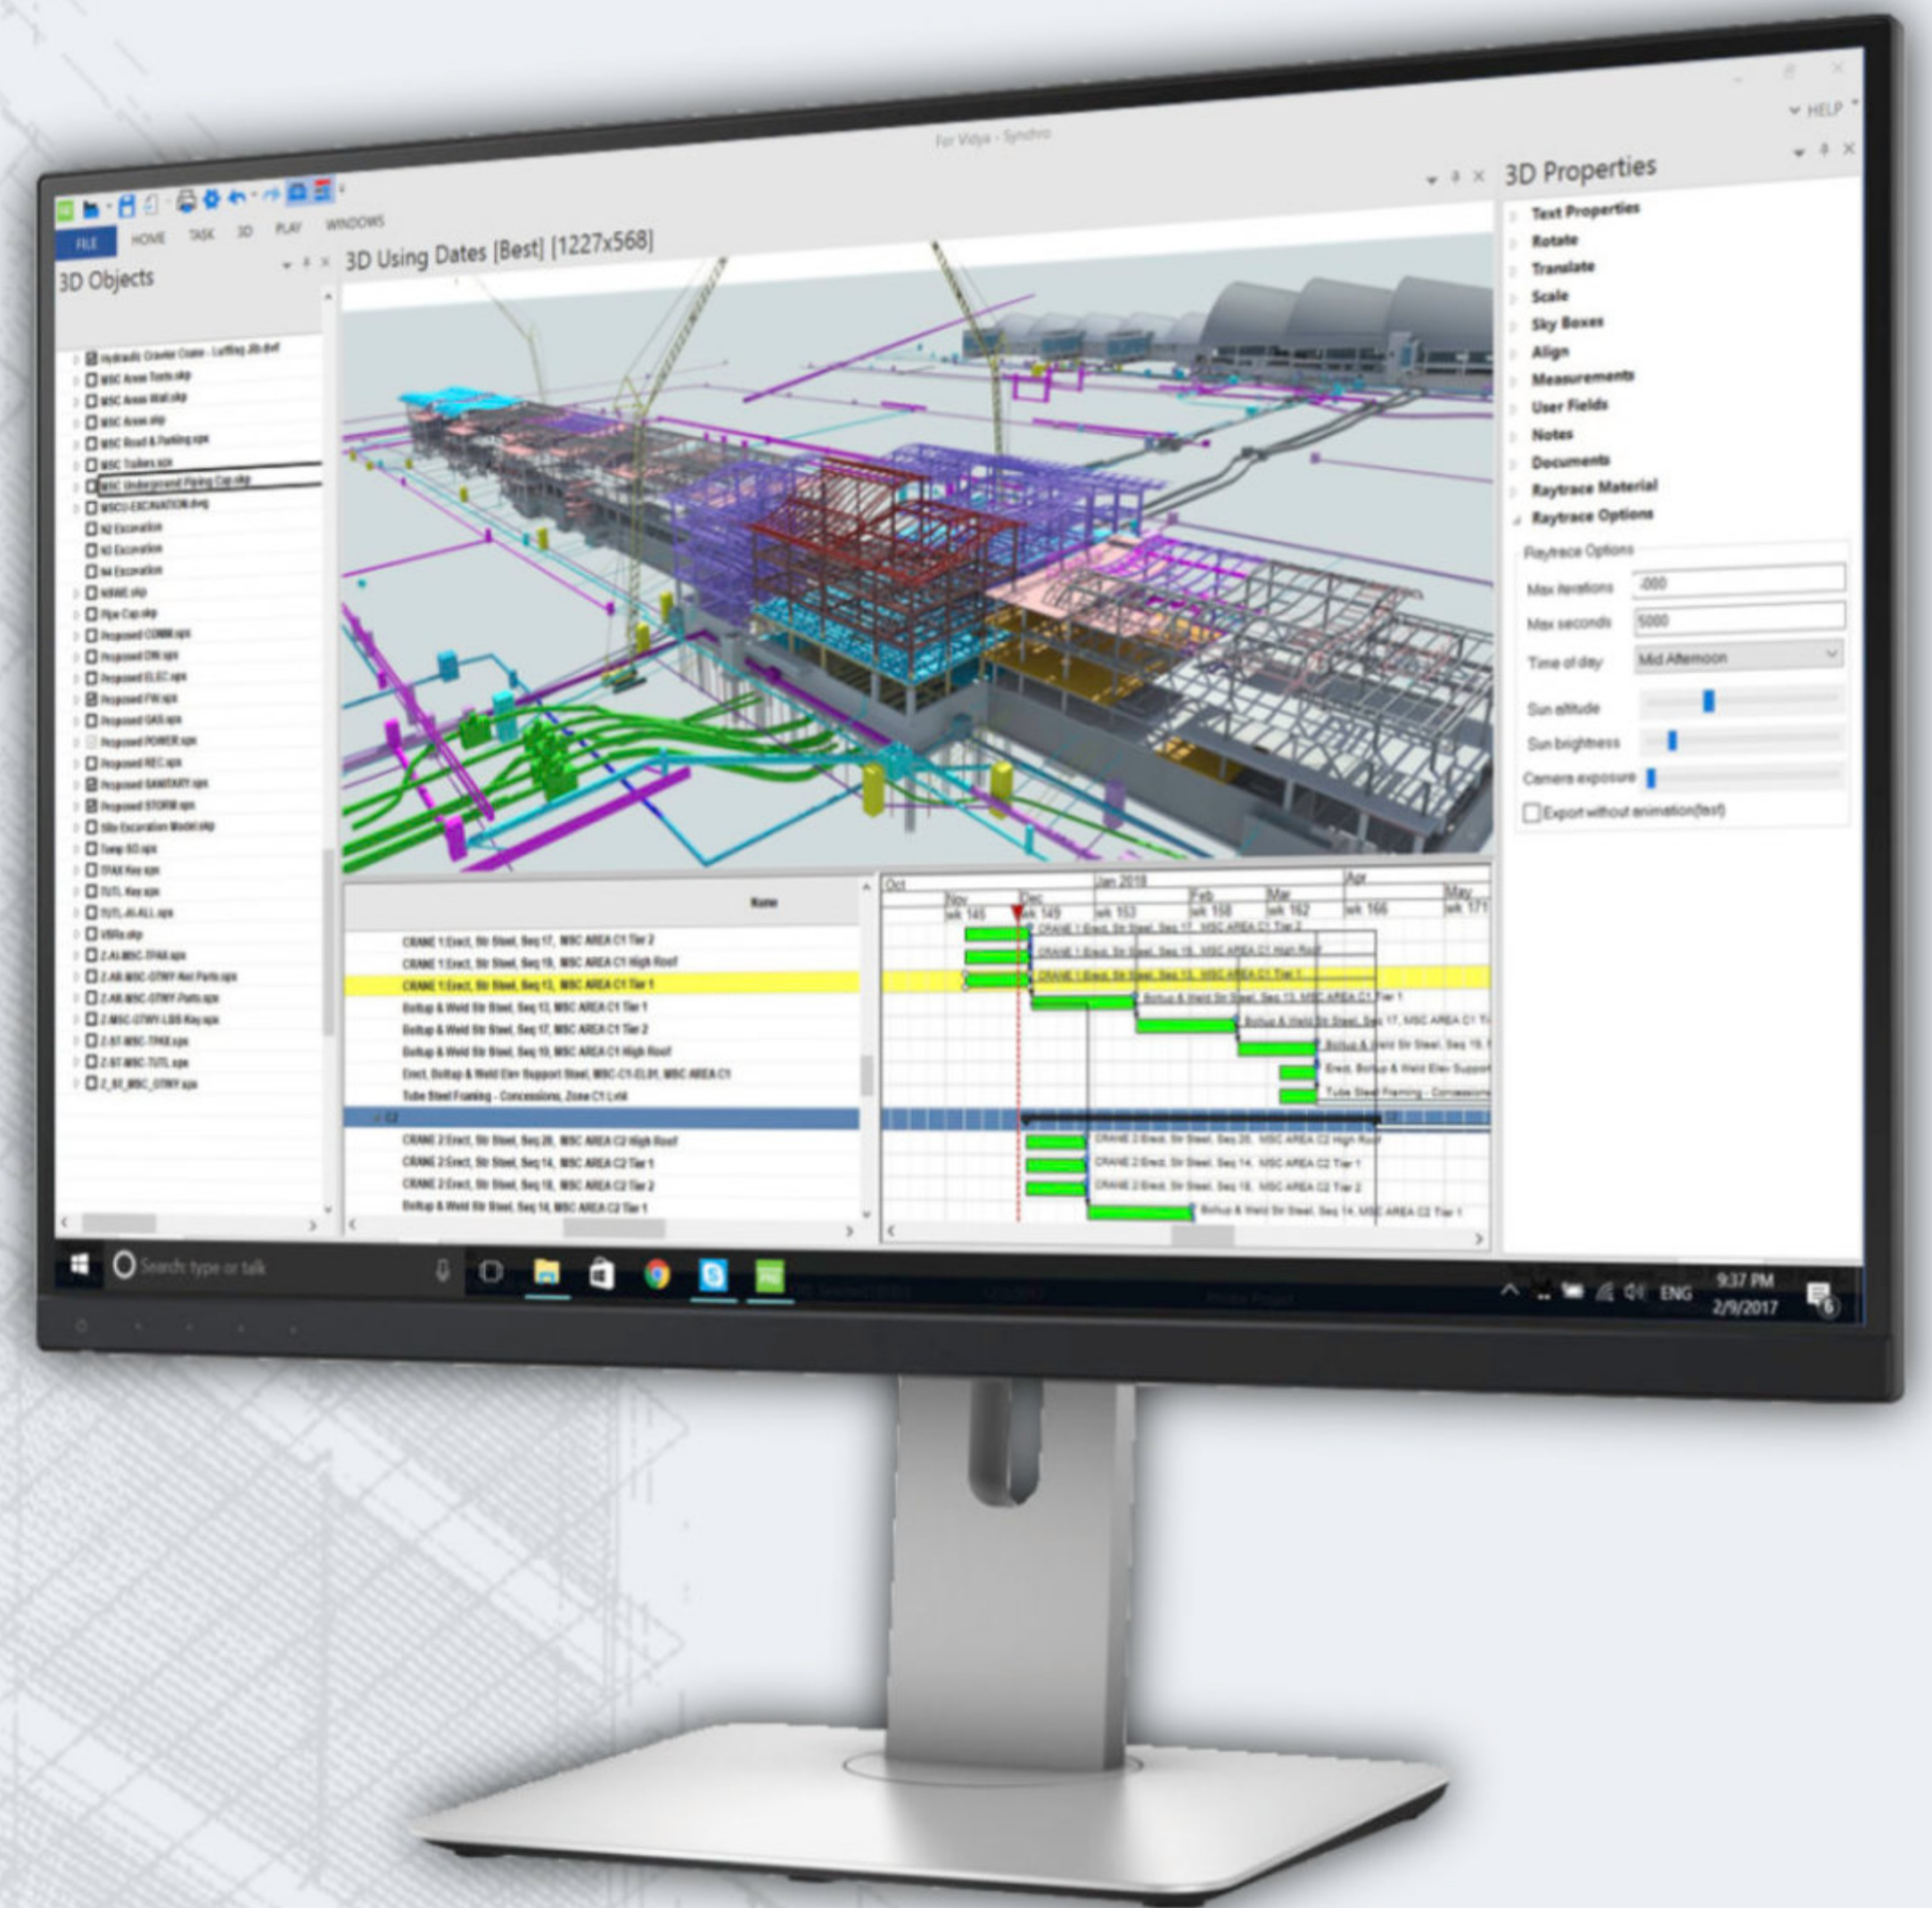

Project controls starts with well-defined planning and PCSS can provide this service from the tendering phase to the early conceptual phase of the project through until comissioning has been achieved. Our service includes the use of Primavera software and is tailored to meet the needs of the individual clients' requirements. All our consultants are fully trained in the use of all our tools and have a wide experience in a variety of industries whether it is for long term or short term assignments.

INTEROPERABILITY

It is time to **SYNCHROnise** your projects. Synchro PRO is interoperable with legacy CPM software such as Oracle Primavera P3 and P6, Microsoft Project, Asta Powerproject and PMA Netpoint. PRO also integrates with over 60 3D CAD file types and IFC from systems such as Bentley, Autodesk, CATIA, Solidworks, Intergraph, AVEVA and etc.

PRO
SYNCHRO PRO
Our 4D construction project management software sets the standard around the globe. Interoperable, easy to learn, and now includes flexible pricing options.

SWP
SYNCHRO WORKGROUP PROJECT
Host a master project file to ensure your delivery team has the latest projecy updates.

SITE
SYNCHRO SITE
Make your construction tracking be simple by monitoring the progress from the 4D construction model on your iPad.

XR
SYNCHRO XR FOR HOLOLENS
Users can interact collaboratively with digital construction modes aligned with physical space, using intuitive gestures to plan, visualize, and experience construction sequencing

SCH
SYNCHRO SCHEDULER
Traditional 2D construction project planning and scheduling with advanced CPM engine.

OVR
SYNCHRO OPEN VIEWER
Anyone can participate and cooperate on Synchro project files with trial Open Viewer, now including clash detection, cutting plans, markup capabilities and more.

PRE-PLANNING ▸ **DESIGN** ▸ **CONSTRUCTION**

- **REAL-TIME** ADVANCED GRAPHIC SIMULATIONS
- **REAL-TIME** COLLABORATION
- **DYNAMIC** COMMUNICATIONS
- **BASELINE-ACTUAL** COMPARISON
- **LEAN / BIM** INTEGRATION
- **DYNAMIC & STATIC** CLASH DETECTION
- **OPTIMIZE** DELIVERY APPROACH

MISSION & VISION

PCSS Mission Statement

"We are committed to:
1. Understanding our clients requirement
2. Implementing a world class industry standard solution
3. Executing in a professional & ethical manner"

PCSS Vision Statement

"To increase our clients business by providing standard project management solution".

ACCREDITATIONS

PCSS _The Project Management Specialist_ was established in 2005 and as well as its bumiputra roots we also have links to international companies that provides confidence in terms of our stability and credibility within the region. In addition we have received valuable accreditations from local and international societies that require us to maintain certain professional and ethical standards in the daily execution of our business.

ORACLE® Gold Partner

Specialized
Primavera P6 Enterprise
Project Portfolio Management

PCSS is an Oracle Gold Partner with specialisation in Primavera P6 Enterprise Project Portfolio Management (EPPM) solutions providing sales, implementation, training, mentoring & support services across all industries.

SYNCHRO SOFTWARE

PCSS is the Synchro Professional Gold Partner for South East Asia providing sales, implementation, training, mentoring & support services. Synchro Professional provides Business Information Modeling (BIM) for consturction that focuses on project delivery rather than design.

HRDF MALAYSIA

PCSS is an approved HRDF training provider allowing companies to claim 110% of the training fees for our approved courses. (Registration No. 3246)

The Institution of Engineers, Malaysia

Training courses provided by PCSS will earn registered Professional Engineers Valuable Continuing Professional Development (CPD) points required by the Institute of Engineers (IEM) to maintain their professional status.

PMI Consultant Registry

PCSS is the first Malaysian company to become a member of the Project Management Institute's (PMI) Registered Consultant Program. The PMI Consultant Registry is an online resource that provides a PMI-maintained list of consulting firms that are able to improve an organizations project, program and portfolio management practices.

PMI Registered Education Provider — Project Management Institute

PCSS is a PMI Registered Education (REP) with an array of project management courses that have prroven to increase project success in terms of schedule, budget control and resource management.

ABOUT US

PCSS *The Project Management Specialist* has over fifty years of collective experience in project management and understand that just as projects are unique undertakings, project management methods for each organisation can be different depending on individual needs and requirements. As a Project Management Solutions Provider our Services and Products can transform your current project management processes by tailoring practices and standardised methodologies to suit your organisational needs and requirements enabling you to deliver succesful projects more effectively and efficiently.

SYNCHRO PRIMAVERA USER GROUP

SPUG *The Project Management Specialist* facilitates regular Synchro Primavera User Group (SPUG®) meetings where industry users of Primavera and other project management software like to share their experience. The PCSS SPUG meetings have become so popular we are now holding them outside of Sarawak. So register your interest now and be kept updated as to when it will come to your location. If you want to share your experiences at the next SPUG® event in your location, contact our office to secure your speaking spot.
